SANTA ANA, CALIFORNIA, SATURDAY EVENING, MARCH 16, 1912.

50 CENTS PER MONTH

Have YOU Joined
the Roosevelt Club
If Not Why Not?

Tonight Mayor Frank Ey Is Going To Officiate

BALLOTS WILL BE COUNTED IN PRESENCE OF BIG THROG

Subscriptions Will be Received
up Until Nine O'Clock To-
night and Ballots Will be
Made Out for the Candidate.
Get All Your Votes in the
Ballot Box Before Nine
O'Clock Tonight.

You candidates who are down in the
small numbers of the list will have
to hurry today if you want to figure
in this great race.

Crowds of people will push their
way into the Register office tonight.
As a whole they have as much faith
in you as any candidate in this strug-
gle for the \$1400 E-M-F. Touring
Car.

If it was a one-sided race, there
would be no interest and there would
be but a handful of people inside our
double doors tonight.

But the public is alive with inter-
est, more so than they have been in
any public affair ever held in this
county. They are interested because
they are baffled as to who will win.
Not even the contest editor has the
slightest idea. The vote that you
may have in reserve has been forgot-
ten by the contest editor, but he does
know that you have done about an
even amount of hustling. That is the
reason for saying that everyone is
on an equal footing even today, the
last day of a hard fought battle for
ballots.

The ballot box was sealed yester-
day morning. It was sealed by two
of the five judges—Mayor Frank Ey
and H. L. Rutherford.

The contest editor emptied the bal-
lot box and counted the ballots, and
these in addition to what ballots
have already been polled signifies
the close running of the candidates.

As soon as the ballot box was sealed
the key was handed to Mayor Ey.

Promptly at 9 o'clock tonight all
voting will stop and Mayor Ey will
open the ballot box. The sealed en-
velopes will then be opened by the
contest editor and ballots will be
made out for the subscriptions en-
closed, for the candidates whom they
are cast for.

Immediately after this work is com-
pleted the five judges will commence
the final count of ballots to deter-
mine the nine winners.

There will be nine successful con-
testants. The Grand Capital Prize,
the handsome E-M-F. 30 Automobile is
the prize every contestant is aiming
for.

And don't think by this that your
competitors are asleep today. Every
candidate in the "Roll of Honor" is
hustling hard for votes, and you'll
have to crack the whip with a snap
that will be heard all over the county
to get the most votes.

Just do this much and you and your
friends will pile into the big E-M-F.
FIVE PASSENGER TOURING CAR
THAT YOU CAN CALL YOUR OWN.

YOUR OWN—Two words that in
reality means "one more vote than
your closest competitor." A FOUR-
TEEN HUNDRED DOLLAR AUTO-
MOBILE FOR ONE VOTE.

SANTA ANA ROOSEVELT CLUB COMPLETES ITS ORGANIZATION

At a meeting of the officers and
executive committee of the Santa
Ana Roosevelt Club, at the office of
E. E. Koech last evening, the fol-
lowing committees were announced by
President Grubb:

Resolutions and Publicity—J. P.
Baumgartner, Mrs. C. P. Crose, S. M.
Davis.

Membership and Registration—S.
J. Jackman, Mrs. W. B. Tedford, Geo.
L. Wright.

Finance—John Beatty, W. A. Zim-
merman, A. J. Crookshank.

"The Santa Ana Roosevelt Club"
was adopted as the official name of
the organization, and its purpose was
declared to be "To aid in the nom-

ination and election of Theodore
Roosevelt."

It was decided that the club shall
assist and co-operate, whenever and
wherever invited to do so, in the or-
ganization of Roosevelt clubs any-
where in Orange county, and to aid
such clubs in their campaign work in
every way possible.

Roosevelt Republicans everywhere
are invited to join the Santa Ana
Club, ESPECIALLY THOSE IN
SECTIONS WHERE NO LOCAL
CLUB IS ORGANIZED. And it is
presented as the duty of every Roose-
velt Republican in Santa Ana and
vicinity to become a member of the
Santa Ana Roosevelt Club.

SANTA ANA HIGH SCHOOL WINS BOTH AT HOME AND IN GLENDALE

Santa Ana High School won out
with markings of 204 1-3 to 165 1-3
in the last league debate of this sea-
son held last evening in the high
school auditorium. The contest was
between Santa Ana High and Glenda-
dale. The question: "Resolved, That
Italy's action in regard to Tripoli
was justifiable."

The home team upheld the affirma-
tive, and consisted of Isabel Smiley
and Mr. Charles Tidball, two very
able debaters who have won honors
before this, in debates. Glendale was
represented on the negative by Miss
Swartz and Mr. Story. Mr. Tidball
and Miss Smiley both surpassed the
Glendale debaters in every particular.
The Glendale team was composed of
good material, but they showed in-
sufficient preparation and fell down

on rebuttal. The Santa Ana team
received training from both Miss Da-
vis and Miss Everett, now of Los
Angeles. The final score showed a
very signal triumph, with Santa Ana
204 1-3 and Glendale 165 1-3. The
judges were Mr. Meason of Santa
Monica, Rev. Rogers of Long Beach,
and Miss McGee of Los Angeles.
Polytechnic.

As this was a simultaneous debate,
Miss Sophie Hardy and Carson
Smith went to Glendale upholding
the negative side of the same ques-
tion. Great things were expected
from these debaters. Telephone re-
ports stated that the score was 205
for Santa Ana; 184 for Glendale.
This double victory places Santa
Ana high on the list. Next year the
championship must come here.

STANDARD HAILED TO FEDERAL COURT

Held in \$20,000 Bail on Charge
of Misappropriating \$4900
Bank Funds

LOS ANGELES, March 16.—Earl
Standard, the alleged Pomona bank
embezzler, was arraigned today be-
fore Federal Commissioner Van Dyke
on the specific charge of misappropri-
ating funds of a national bank in the
sum of \$4900. His bail was fixed
at \$20,000, which it was believed
would be forthcoming before night.
Assistant Federal District Attorney
Regan stated that while the specific
sum in the charge is but \$4900, the
government expects to prove that
Standard's alleged peculations aggre-
gated almost \$150,000.

Charge Stands in Pomona
POMONA, March 16.—Justice E.
W. Barnes, in whose court Earl
Standard was held in bonds of \$10-
000 on the charge of embezzling from
the American National Bank, stated
today that the federal authorities
have the power to re-arrest Standard.
The charge here still stands, al-
though Standard is in Los Angeles at
the command of the federal officers.
Barnes said that unless he received
federal instructions to dismiss the
case here he would proceed with the
arraignment of Standard on Monday,
as scheduled. Standard was arrest-
ed last night by the federal authori-
ties.

BANDIT LEADER ALLEN'S GETAWAY

Escapes From Posse; Report of
Mrs. Allen's Death Denied;
True Bills Against Allens -

HILLSVILLE, Va., March 16.—Sid-
ney Allen, the leader of the Allen
gang of outlaws, escaped today from
the posse affecting his capture yester-
day. The news of his escape was
brought in by a mountaineer sent by
the posse to warn the authorities to
be on their guard.
Reports here of the clash between
Allen and the posse differ. The
courier stated that the posse was
coming here with Allen. He said
the reports that Allen's wife was
killed were unconfirmed. Later a ru-
ral letter carrier told Postmaster
Owen that the posse cornered Allen
but the outlaw escaped after the
skirmish. It is generally believed
Allen is still at large.
A special grand jury today return-
ed true bills against the Allens.
Floyd Allen, who started the court-
room shooting, has apparently re-
pented. He asked that Garland Al-
len, a brother who is a Baptist min-
ister, be summoned.

RUOF INDICTMENT CASES CONTINUED TO MARCH 30

SAN FRANCISCO, March 16.—The
Abner Ruof indictments in other graft
cases numbering one hundred and five,
have been continued to March 30th
by Judge Dunne pending the return of
the court's decision on the motion to
dismiss filed by District Attorney
Pickert.

nell, J. W. Tubbs, H. A. Leiby,
Mrs. Hattie McPhee, Mrs. F. C.
Remsburg, Mrs. J. W. Tubbs,
Mrs. Blanche Hemstock and
Mrs. F. L. Austin.

With 150 persons present, the
Santa Ana Taft Republican Club was
organized last night at the Armory.
Officers were elected, a platform
adopted, C. C. Chapman mentioned
as a possible candidate for congress,
and addresses were given by C. C.
Chapman of Fullerton and District
Attorney J. D. Fredericks of Los An-
geles. By mutual consent the sign-
ers of the call for the meeting be-
came members of the club. Pres-
ent at the meeting last night were
about twenty-five women, several
Democrats who went to hear Fre-
dericks speak, and a number of Re-
publicans from Huntington Beach,
Fullerton, Anaheim and Orange.

The meeting was called to order by
Attorney R. Y. Williams, who said
the purpose of the club would be to
help re-nominate the best president
the country had ever had, L. L.
Shaw nominated O. M. Robbins for
temporary chairman, and Robbins
was chosen. In his remarks Robbins
said that California needs friends at
Washington, and Taft is a friend of
California. C. D. Lester nominated
A. W. Rutan for temporary secre-
tary. Rutan was chosen, and J. C.
Burke moved that the chair appoint
a committee of five on platform and
a committee of five on permanent or-
ganization.

This motion carried, and Robbins
appointed as follows: On perma-
nent organization—W. G. Potter,
George Shattuck, H. H. Roper, L. L.
Shaw and J. N. Martin. On plat-
form—R. Y. Williams, J. W. Powers,
S. W. Sutton, A. E. Bird and C. A.
Kingston.
On the report of the committee on
permanent organization, the tem-
porary officers were made permanent
and two vice-presidents and a treas-
urer were elected. The executive
and finance committees were appoint-
ed by the chair.

The platform committee reaffirmed
the platform adopted by the State
Taft Club on March 4, and made it
the platform of the club, adding a
paragraph condemning the action of
the Democrats in the movement to
remove the duty on sugar, which re-
moval would prove of especial detri-
ment to Orange county.

A letter was read from Clyde Bis-
hop in which the assemblyman de-
clared his affiliation with the Taft Club
Chapman "mentioned"

Introducing C. C. Chapman of Full-
erton, President Robbins said:
"Our brothers of the Roosevelt
side seem to have some difficulty in
getting a candidate for congress.
Why, we could name half a dozen,
and one of them would be C. C. Chap-
man, who will now speak to you."
"We have a great work before us in
California," said Chapman, "and it
behoves us to attend strictly to
business as Republicans. I say Re-
publicans—that is a grand name, and
we do not need any other name. Pro-
gressive Republicans? Why the name
Republican is a grand name. As to
progressiveness, the party has been
the party of progress for fifty
years. It has built every institu-
tion we have. I believe in the right
kind of progress. A man digging a

LINER OCEANA SINKS AFTER COLLISION

P. and O. Liner Crashed Into
Bark Pisagua Off Eastbourne
—Seven Known Dead

BELIEVED DEATH ROLL
BIG—LIFE BOAT CAPSIZED

Oceana Carried Rich Cargo
and Large Passenger List
for Bombay

LONDON, March 16.—Con-
firming earlier reports that
lives were lost when the P. and
O. liner Oceana collided with
the German bark Pisagua, the
steamship company officials
admitted tonight that seven
passengers are missing. Their
names are withheld. A French
trawler arrived here with the
bodies of two of the victims.
The captain expressed his be-
lief that at least fifteen people
were drowned in the disaster.

Passengers of the Oceana arriving
here declare that not less than six-
teen were drowned. The first life-
boat leaving the ship capsized with
in a quarter of a mile in full sight
of the others. The passengers say
there is no chance that any were
saved. They tell harrowing tales of
the actions of the ship's crew. The
passengers suffered terribly. It was
bitter cold, and the majority of the
women were clad only in their night
gowns.

Early Report of Collision
LONDON, March 16.—Five passen-
gers, mostly women, were reported
today as having perished when the
Peninsular and Oriental liner Oceana
collided with the German bark Pis-
agua off Eastbourne. The steamship
company officials denied that any
lives were lost.

Lascar sailors are said to have
fought with women and officers in an
attempt to seize the lifeboats. Order
was restored when the officers drew
their revolvers. A panic followed the
crash and several attempted to leap
into the sea. The first lifeboat, con-
taining women, was overloaded, and
is reported to have been swamped.
All the others are said to have been
saved. The ship sunk within five
hours after the collision, sinking when
tugs were trying to beach her. The
Pisagua was badly damaged, but
reached port.

The Oceana carried a \$7,000,000
cargo. She was bound for Bombay
with a large passenger list. The com-
pany admitted that one lifeboat had
capsized.

MINERS WAGE BILL MAY SETTLE STRIKE

LONDON, March 16.—The draft of
a minimum wage bill which is con-
sidered as a means of settling the
coal strike was debated today by the
cabinet. It was prepared by Chan-
cellor Lloyd-George. It is understood
the cabinet approved the draft, and
that the bill will be presented to the
House of Commons by Premier As-
quith next Tuesday.

U. S. MINERS DECLARE STRIKE SURE TO COME

NEW YORK, March 16.—Represen-
tatives of the eastern anthracite coal
miners have issued a statement that
a strike is certain, and claiming that
the entire responsibility rests on the
operators. The committee declared
they were given no opportunity to
present their demands for discussion.

ONTARIO'S TELEPHONE SYSTEMS CONSOLIDATE

ONTARIO, March 16.—Following a
persistent effort on the part of resi-
dents of the city to eliminate one
telephone system, the local Home and
Sunset telephone systems were taken
over yesterday by the Ontario and
Uplands Telegraph and Telephone
Company, articles of incorporation for
which were taken out Saturday.
The Sunset system in Uplands was
included in the deal.

Brother Sought To Save Guilty Newspaper Man

SEATTLE, March 16.—Despite
the attempts of his sixteen-year-
old brother to shoulder the blame,
Herbert Hanlon, a newspaperman
charged with grand larceny from
the theft of clothing and furs
from the offices of J. F. Douglass,
a wealthy lawyer, was found
guilty after the jury had been out
all night. The verdict exoner-
ates Howard, the brother who
swore he was the guilty one.
Hanlon's father and mother,
also attempted to place the blame
on the younger son. The prose-
cution claimed that this was done
because they thought the court
might be lenient to Howard who
recently married a high school
classmate.

"CALF LOVE" IS BARRED

SAN BERNARDINO, March 16.—
"There are several different kinds of
love. The species that attacks school
children is calf love, a sort of nuis-
ance that interferes with their stud-
ies."
This is the definition given by the
principal and teachers of the Fourth
Street grammar school in San Ber-
nardino, following an order there
yesterday directed at "silly spooning."
Hereafter the youths must stay on
their own side of the playgrounds at
recess.

MAINE SINKS IN DEPTHS OF SEA

Convoys to Ocean Grave by
Cuban Navy and U.S. War-
ships; Flag Floats on Mast

MILLIONS OF ROSES ON
WAVES AS MAINE SANK

Solemn Mass Over 56 Maine
Victims; North Carolina Car-
rying Caskets to U.S. Burial

HAVANA, March 16.—Accompan-
ied by American warships and the
entire Cuban navy, the hulk of the
Maine was today towed to the Flor-
ida straits, nine miles from Havana,
and sunk, with an American flag
floating at her mast head, and a thun-
der of guns from the convoy. Her
decks were covered with roses.

Business was suspended here in
honor of the Maine's death. Thou-
sands of people visited the city hall,
where the caskets of fifty-six vic-
tims stood. These were later taken
aboard the cruiser North Carolina,
and started for Washington, D. C.,
to be placed in Arlington cemetery.

All the Catholic priests in the Ha-
vana diocese assisted Monsignor
Chadwick, former chaplain of the
Maine, to celebrate a requiem mass
in honor of the victims of the ill-
fated ship. President Gomez and the
entire Cuban cabinet attended the
mass.

The naval procession was led by
the North Carolina, and was two
miles long.

Following the requiem mass the
caskets of the victims were hoisted
on the shoulders of sailors and de-
posited on the North Carolina, while
every bell in the city was tolling. As
the marine funeral cortege steamed
seaward, the land forts fired the
national salute, the warships replying.
The hulk of the Maine was buried
in thirty-six hundred feet of water. The
escorting fleet formed a hollow
square.

After Major Carden, on behalf of
the Cuban government, had transfer-
red the remains of the sailors into
American custody, General Bixby re-
ceiving them, the machinists opened
the flood cocks, bulk-heads and flood-
gates, and the Maine settled into her
deep-sea grave.

When the funeral procession re-
sumed its way to Washington, mil-
lions of roses, washed from the sink-
ing ship, marked the last resting
place of the Maine.

The doors of the city hall were
opened to the public at 2 o'clock yester-
day afternoon, and from that hour
on great crowds passed reverently by
the spot where the bodies of the vic-
tims of the Maine were lying in
state. A guard of honor stood about
the caskets, which were covered
with black cloth. On top of the cas-
kets were the American and Cuban
flags and a wealth of flowers. The
guard of honor had to be changed
every five minutes; so anxious were
men to serve.

SQUARELY UP TO M'KINLEY

On March 11, Senator Dixon
sent a letter, to which the fol-
lowing is a copy, to the Hon.
W. B. McKinley:

March 11, 1912.
Mr. William B. McKinley,
Director, the National Taft
Bureau, Washington, D. C.

My Dear Mr. McKinley:
Let me call your attention to
the accompanying copy of a
letter from Colonel Roosevelt.
In view of this unqualified en-
dorsement of my challenge of
March 4th, for a general pri-
mary test of the sentiment of
Republican voters as to their
presidential candidate in the
approaching campaign, I shall
be glad to know whether Mr.
Taft, whose personal represen-
tative you say "you are simi-
larly endorsing us in refusing
that test."

Very truly yours,

JOS. M. DIXON.

Chairman, National Roosevelt
Executive Committee.

INDIGESTION WILL VANISH

Makes Your Out-of-Order
Stomach Feel Fine in
Five Minutes

Take your sour, out-of-order stomach or maybe you call it indigestion, Dyspepsia, Gastritis or Catarrh of Stomach; it doesn't matter—take your stomach trouble right with you to your Pharmacist and ask him to open a 50-cent case of Pape's Digestin and let you eat one 22-grain Triangule and see if within five minutes there is left any trace of your former misery.

The correct name of your trouble is Food Fermentation—food souring; the Digestive organs become weak, there is lack of gastric juice; your food is only half digested, and you become affected with loss of appetite, pressure and fullness after eating, vomiting, nausea, heartburn, griping in bowels, tenderness in the pit of stomach, bad taste in mouth, constipation, pain in limbs, sleeplessness, belching of gas, biliousness, sick headache, nervousness, dizziness or many other similar symptoms.

If your appetite is fickle and nothing tempts you, or you belch gas, or if you feel bloated after eating, or your food lies like a lump of lead on your stomach, you can make up your mind that at the bottom of all this there is but one cause—fermentation of undigested food.

Prove to yourself in five minutes that your stomach is as good as any; that there is nothing really wrong. Stop this fermentation and begin eating what you want without fear of discomfort or misery.

Almost instant relief is waiting for you. It is merely a matter of how soon you take a Little Digestin.

FOREST MAN VISITS HERE

Charles H. Shinn Making a
Special Study of By-Prod-
ucts of Trees

Charles H. Shinn, a national forest examiner, former forest supervisor of the Sierra National Forest, near Fresno, was in Santa Ana today for a visit at the nurseries of Dr. Newton B. Pierce. Shinn has been at the Los Angeles Land Show giving forest lectures. He is engaged in preparing reports on the by-products of various trees. The government will soon issue a 300-page report, prepared by Shinn, on the acacias. He is to make a special study of exotic trees in this state.

Shinn was at one time editor of the Overland Monthly. He gave up his literary work for forest work, in which he is enthusiastic, and is now doing a work that combines his literary talents and his knowledge of flowers, trees and chemistry.

He is planning a special trip to the Taft ranch north of Orange to make a study of the imported fruits grown there by C. P. Taft.

NEWS BUDGET OF FAIRVIEW

FAIRVIEW, March 16.—A surprise party was tendered Stanley Robinson Monday evening in honor of his eleventh birthday. Games, music and refreshments were enjoyed, there being a large birthday cake on which flamed eleven little candles. The guests included Lucy Comber, Fred Glen, Brador and Pearl McKinzie, Willie and Charlie Glaze, Irene Harlin, Edith MacKie, Cora and Drew MacKie, who chaperoned the young people.

Mr. and Mrs. T. S. Harlin entertained a number of their friends Wednesday evening.

On Wednesday afternoon the Philmie Club was entertained at the home of Mrs. W. S. Babb on Fairview avenue.

R. A. Stevenson spent the week-

end in Santa Ana. Mrs. M. V. Burgess of Santa Ana, and Mrs. J. E. Sanders of Newport Beach were the guests of Mr. and Mrs. T. C. Burgess this week.

Charlie Shiffer of Polerino has returned from Kansas, where he has been visiting for some time.

T. S. Harlin was a business visitor in Los Angeles Tuesday.

Mr. and Mrs. J. E. Alton have a new daughter in their home. She arrived March 11.

James MacKie, proprietor of the Hot Springs Hotel, left for Idaho Monday evening on a business trip.

The revival meetings are still in progress in the schoolhouse here.

Mrs. W. S. Babb entertained at a dinner Sunday at her home on Fairview avenue, in honor of the birthday anniversary of Will Devenny of Old Newport.

BOOST! BOOST! BOOST!

Boost your business—do all you can for the prosperity of your town—help everyone with whom you come in contact—make life more worth the living—make people glad they met you.

And there is always one way in which you can do these things. KEEP WILD.

Did you ever get much happiness or good cheer from a man who was sick, whose stomach was out of whack, who had a grouchy? Of course you didn't. The man that radiates sunshine is the one in perfect health.

It is easy to get in that condition, too. A very large proportion of bodily ills is due to clogged systems—to disorders of the blood, liver and kidneys. Get them to their normal healthy condition and your days are full of sunshine. SOLDIER CHAPLAIN DIED AT PASADENA

Huntington Beach News: A distinct feeling of deep personal loss was experienced by every one in the city of Huntington Beach and the section surrounding it, for many miles about, when the news was received here early Thursday morning of the death of Rev. Dr. Edgar E. Clough the evening before at his home near Pasadena. Dr. Clough had occupied the pulpit of the M. E. church here and at Westminster for several years preceding his departure from this city, two years ago, and was known and loved by hundreds of people here and by thousands in various portions of the United States where his labors had made him at times a resident. He leaves a widow, and three daughters and a son, who, in their bereavement, will have the sincere sympathy of a host of friends. The daughters are Mrs. J. H. Pearman of San Francisco and Misses Alice and Stella Clough of Pasadena, the latter being now in Colorado. The son resides in South Dakota.

Dr. Clough served as chaplain in the Civil War, was a distinguished member of the order of Odd Fellows and had occupied many high positions in the M. E. church of which he was for a number of years a presiding elder.

Death came to him in the presence of his wife and daughter, Miss Alice, about 9 o'clock Wednesday evening while sitting in the living room of his home, quietly and painlessly. A more extended history of his long and useful life will appear in next week's issue of the News.

Henry Ford wrote a great prescription for the removal of dead weight in automobiles when he prescribed Vanadium Steel. It is the most expensive—and the toughest steel. Scientifically heat treated, this steel defies shock and vibration. It doesn't crystallize.

By the use of Vanadium Steel the weight of Ford Model T has been reduced to the minimum—60 pounds to the horsepower. At the same time it is a car that has no equal in the world for qualities of durability and cheap maintenance.

in which the magneto is built into the

motor—An integral part of the car.

When Henry Ford designed this Model T Magneto he practically eliminated ignition troubles, and about 90 per cent of the annoyances which beset other motor cars—yet this is only ONE of the several exclusive and superior features of Ford Model T.

M'DANNALD TELLS OF CLOSING SCENES OF GREAT LAND SHOW

Lecturer From Orange County Speaks to Big Crowds---Everybody Interested In California

Kansas City, Mo., March 11, 1912. Just a few "closing scenes" of the great land show. The attendance throughout was good, considering the inclement weather which prevailed during every precious moment. If any man, living or dead, human or divine, could possibly doctor up a mess of weather more disagreeable than we have had on tap since we landed in the city, then to him I cheerfully doff my lid. We arrived here Feb. 17, at 10 o'clock p.m. When we awoke next morning there was snow on the ground, and it has kept us company ever since.

At the present time the "Beautiful" lies at least 12 inches deep. It has fallen most all day, with intervals of a drizzling rain. I went out to Sheffield, a suburb, and spent the night at the home of Mr. and Mrs. Linderman. The lady is a sister of Geo. W. Minter. When I got up the snow was falling at the rate of an inch an hour, and I was two hours getting back to the city.

The street car people are putting up a gallant fight to keep their lines open, but it looks sometimes like a hopeless task. The city is spending vast sums of money in a vain effort to make the streets passable. The mud and the sush, and the snow, loom up large in the way of "discomfort" to Californians, and we have taken advantage of the opportunity of using it as a frightful example.

Big Attendance
The attendance at the land show was about 10,000 daily, and it is safe to say 125,000 people saw and were captivated by Southern California's beautiful exhibit. There was no other exhibit in the building which

approached it nearer than a gun shot, and a pretty long range took that. Thousands of people took the trouble to tell us this. One thing I am certain of; we made a great hit with the Kansas City folks, and Jasper, at least, has been compelled to remain in hiding a good part of the time to escape the invitations out to eat. By the way, Jasper is known as a "small" feeder.

I think we also made good in the lecture rooms. Four times each day the visitor had the chance to see our pictures, and they showed their appreciation by numerous public ovations, and private compliments. All of which was gratifying beyond the power of description. Jasper, or myself, never missed a chance to talk. I am a matter of choice, I from one of duty.

It happened quite often that a "visiting" lecturer got "stage fright," or in common vernacular, "cold feet," and we were used as "fillers." When the announcer called "Southern California," the people flocked in, and we were assured of an interested audience. Not so with many of the others. I have gone into the lecture rooms on several occasions to find a man talking to what I would call an "empty house."

"California" is a mystic word back here, and at a fair estimate, at least 95 per cent of the people we talked with expressed the intention of making it their home "sometime."

I have so far seen but very little of the city, and am therefore unable to describe it to any extent, but of the people I can say much, for I have talked with them by the droves, herds and flocks. In a general way, I can truthfully say, "I like them very much," for they are a hopeful, hospitable class, full of good cheer, an abundance of pleasant smiles, even under adverse circumstances, and have a widespread desire to see Southern California. The women folks, taken "by and large" are good looking (This opinion, by the way, I borrowed from Jasper—and I disclaim any credit for the discovery).

San Diego Boosters
To my mind it is morally certain that San Diego has more lady boosters in Kansas City than in any other city on the continent, not excepting San Diego. I heard it every day, and every hour in the day, and if Los Angeles is not watchful of her honors as to the claim of being the "Mecca" of tourists, she won't have any to lay claim to. San Diego will have it, and she will have earned it in an honest, open fight. I am sure I heard more inquiries about San Diego than I did about Los Angeles, or Orange county, and you, as well as I, know it was not from superior merits or equal opportunities, but from better advertising.

And, speaking of advertising reminds me that I want to make some comparisons, although they are sometimes "odorous." Every night when the show closed, the hall was strewn with printed matter. We made diligent search, and during the entire two weeks, found just five pieces of California literature, a fact which seems marvelous in view of the tons of stuff thrown away, coming from other localities. Now, there are but three reasons to account for this. First, our booklets are gotten up in much more attractive form; that is to say we have employed the highest type of the lithographer's art in our booklets; we never urge anyone to take them, and the words "Southern California" cast such a magic spell over the people, the temptation to

get our literature becomes contagious. I brought about 8000 pieces of Orange county literature with me, and I was compelled to "husband" it in order to have any left for the closing days.

I went out to dinner one evening with some acquaintances I made here, and was gratified to see one of our "Spring Eternals" gracing the center table. That is the kind of advertising that brings results.

One of the Kansas City dailies last week devoted nearly a column to the Orange county lecture and stereopticon views, showing they had attracted the attention of at least one poor misguided pencil pusher. I am surprised at the vast number of people living here who have toured the country in days ago, and every mother's son of them is willing and even anxious to swear by her fascinations and allurements. To me this has been a great educator. I have been "showed" the way to a higher plane of advertising, and I can see "plainly"—as the blind man said—why and how Los Angeles and San Diego have made such marvelous growth.

CATARRH GONE

No More Hawking and Snuffling When You Breathe Hyomei

HYOMEI (pronounce it High-o-mei) is guaranteed to end the misery of catarrh.

Breathe it, destroy the catarrh germs, and soon hawking and snuffling will cease. Breathe it, and crusts will no longer form in the nose; mucus will not lodge in the throat; all inflammation will leave the membrane of the nose and throat and your head will feel clear and fine.

Breathe it for coughs, colds and sore throat; its soothing, healing, antiseptic action is better than all the stomach dosing remedies in creation, and there isn't a particle of opium, cocaine or other habit forming drug in it.

Complete outfit, which includes inhaler, \$1.00. Extra bottles of HYOMEI 50 cents at the Rowley Drug Company and druggists everywhere.

AMUSEMENTS

Mildred Holland, in "The Power Behind the Throne"

Many have wanted to see Miss Holland in this big stage production, but the cost has prevented, as it is usually a two dollar show; but, as has been predicted, moving pictures will show everything and more than what can be given on a stage. So this is the first time you have had the chance to see this wonderful emotional actress (Mildred Holland) in motion pictures. This is the original reproduction and will be seen at the Temple tonight and Sunday, and will be your only opportunity to enjoy it. "The Power Behind the Throne" is alone worth the price, but there will be five reels for this big special show. Two performances nightly, 7:30 and 9 p.m. Admission to see all only five and ten cents.

The Bell Theater presents all new pictures, including Niagara Falls in Winter. That grotesque comedy team, Bartlett & Collins, will fill every one with laughs for a week. There has never been anything in town like their act. Saturday and Sunday at the Bell.

SOCIALISTS HELD PUBLIC SPEAKING

FULLERTON, March 16.—Mrs. Irene Smith of Santa Ana was the chief speaker of the evening last night at a Socialist meeting held in the Bank Hall. A large number of people were present and a great deal of interest was shown. The meeting was held in the interests of the Socialist candidates who are running for city offices at the coming election, April 8.

Mr. Hapmalhatch, candidate for city clerk, was chairman of the evening. The Anaheim quartet of men gave a few vocal selections which were very favorably received. After the main address of the evening by Mrs. Smith, a question box was opened. None of the candidates for city office spoke at last night's meeting.

Mrs. Smith said in part that Socialism had now come and would have to be reckoned with. The machinery of the government could no longer be run by a few for a few, but all the people would turn to the Socialist party as a means of securing for themselves this just right in the management of public affairs.

SHE GAVE UP ALL HOPE

Physicians Failed To Help Mrs. Green, But She Finally Found Relief in Cardui.

Meetze, Va.—Mrs. J. C. Green of this place, says: "I suffered with womanly troubles so that I could hardly sit up. Two of the best doctors in our town treated me, and I tried different medicines, until I gave up all hope of ever getting well."

One day, decided to try some Cardui. It did so much for me that I ordered some more, and it cured me! Today, I feel as well as I ever did in my life.

The pains and the trouble are all gone. I feel like another person in every way. I wish every sufferer could know what Cardui will do for sick women."

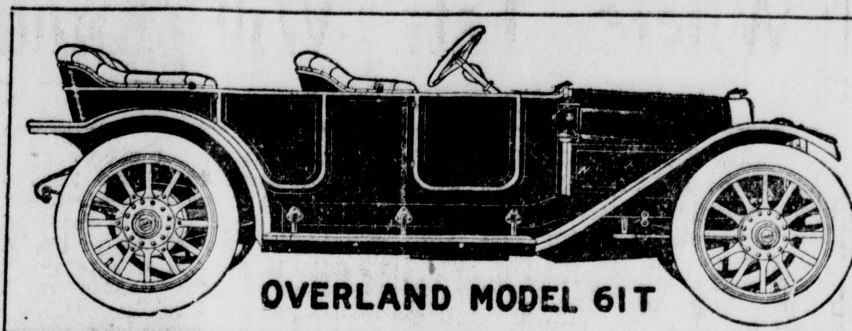

A few doses of Cardui at the right time, will save many a big doctor bill, by preventing serious sickness.

It tones up the nervous system, and helps make pale cheeks fresh and rosy. Thousands of weak women have been restored to health and happiness by using Cardui. Suppose you try it.

It may be just the medicine you need.

HOW FACTORY FACILITIES AFFECT AUTOMOBILE PRICES

OVERLAND MODEL 61T

BILE PRICES

Showing why the greatest factory in the industry can give you more for less money.

ANYONE with enough capital to buy a few parts can make a line of automobiles. Frames, motors, transmissions, bodies, axles, etc., can be delivered in at least thirty days from part makers all over the country. Just get a stock design—put these parts together—find out how much the parts and the assembly cost you—add what you consider a fair profit, then go out in the open market and start your business.

This description represents the small assembly shop. They buy everything and make nothing. Therefore it must cost them more to do business than the larger factory, for every single part of their car is bought from some outside source. They must pay the part maker a profit as well as themselves, AND THE CONSUMER IS FORCED TO PAY BOTH OF THESE PROFITS. If, for instance, this maker is producing a forty-five horsepower touring car, it must cost you a good 30% more than the finely finished Overland car of that type. Generally this grade of factory turns out about 1000 to 2000 cars a year.

WHY SHOULD YOU PAY THEIR HIGHER PRICES?
The next step, in automobiling manufacturing, is the plant that markets 5000 to 6000 cars a year. This plant is not much different from the smaller plant, except that it is a little larger in appearance. Here you may see some little manufacturing. You see men drilling and filing, and possibly you will find quite a few lathes in operation. Their motor is probably

built from a special design, BUT BUILT BY SOMEONE ELSE. This grade of plant also has to pay the middleman a profit, and gets its own profit besides, ALL OF WHICH THE CONSUMER MUST PAY.

Compare this plant with what you see at the enormous Overland factory, where 25,000 cars a year are made. Here the middleman does no business. Nothing is bought from the outside. There are NO extra profits to be provided for, for which the consumer must pay. Every single part of the car is made in the Overland plant. Our buildings cover over 80 acres; 5000 men are employed. Millions are invested in automatic machinery, and the Overland plant is the greatest and most modern automobile plant in the world.

In the automobile business, like everything else, the facilities—first, last and all the time, govern the selling price of each individual car. The greater the facilities, the lower the market price of the automobile. Where we make 25,000 cars, the average plant will make but 5000, and less. What they do by hand, we do by machinery. Where they employ 500 to 1000 men, we employ 5000. Where they buy material in small quantities and pay the long price, we buy in large quantities and pay the small price.

Two values, typical of what we do in the way of economical production, are described here. MODEL 60 is a thirty-five horsepower touring car priced at \$1450. It is a big, five-passenger car, comfortable and with lots of room. It has a powerful thirty-five horsepower motor,

which can easily develop fifty miles an hour. The wheel base is one hundred and eleven inches. The transmission is of the selective type, three speeds and reverse, fitted with F & S bearings, which are used in the most expensive cars made. Crank and gear casings are made of aluminum. The frame is of cold rolled pressed steel. The operating levers are in the center of the car. The body lines are graceful and pleasing. The upholstery is of good leather, hand stuffed with fine hair.

Can you duplicate this car for much less than \$1650? If you want a machine of the thirty-five horsepower touring car type, would you pay \$1650 when you can get this car for \$1450?

MODEL 61, at \$1750, is another exceptional value. This car has a forty-five horsepower motor; seats five people. The wheel base is 115 inches. The front axle is a one-piece drop forged I-section, fitted with Timken bearings. The rear axle is full floating, also fitted with Timken bearings. The pressed steel frame has a double drop. It is equipped with Bosch magneto. Tires 34x4 inches. The big, handsome body is finished in rich Brewster green, ivory striped. All bright parts are heavily nickel-plated. Upholstery is of the best leather and genuine hair. This car is big, strong and magnificent. It is hard to figure what more anyone could possibly want in an automobile. It is complete in every detail, having all those little modern refinements that make for comfort. The price for this car is \$1750. Go over the market with a fine tooth comb and you will not find its equal for less than \$2150.

DELICATELY FORMED

and gently reared, women will find in all the seasons of their lives, as maidens, wives and mothers, that the one simple, wholesome laxative remedy which acts gently and pleasantly and naturally and which may be taken at any time, when the system needs a laxative, with perfect safety and really beneficial effects, is Syrup of Figs and Elixir of Senna.

It has that true delicacy of flavor which is so refreshing to the taste, that warming and grateful toning to the stomach which responds so favorably to its action and the laxative effect which is so beneficial to the system when, occasionally, its gentle cleansing is desired.

The genuine, always bearing the name of the California Fig Syrup Co., may be purchased from all leading druggists in original packages of one size only; price fifty cents per bottle.

WHY CUTTLE FOR CONGRESS?

The Register wants no misunderstanding of its attitude in the congressional fight now on in Riverside county between Mr. Evans and Mr. Cuttle. Both of these gentlemen are personal friends of the editor of this paper. Both are men whose friendship is worth having and striving to keep. Whenever Mr. Evans has been under discussion in this matter this writer has always expressed high regard for him as a man and a citizen.

The Register is supporting Mr. Cuttle in preference to Mr. Evans—

First—Because, in common with many other Progressive Republicans of this county, he pledged Mr. Cuttle his support and urged him to enter the race months before Mr. Evans was ever mentioned as a candidate.

Second—Because the sentiment of the Progressive Republicans of Orange county seems almost unanimously in favor of Cuttle.

Third—Because it is our firm belief that the Progressive movement within the ranks of the Republican party cannot possibly maintain its vitality and make substantial headway if its adherents do not stand loyally by those who fought its battles when it was young and weak, and struggling for expression and sustenance—provided, of course, that the aspirants for support are capable and worthy men.

Mr. Cuttle is a capable and worthy man—a man of exceptional ability and especially well qualified to represent this district in congress. He was a pioneer in the Progressive movement, an efficient and forceful factor contributing to its success.

Mr. Evans declined to enlist in or support the Progressive cause until after it had won a great victory at the primary election in which Johnson and Wallace were nominated.

Fourth—Because the nominee should be a man who can win at the primary, a good campaigner. Mr. Cuttle is such a man, vigorous, active, forceful. In a brief and hurried trip over Imperial county—after Mr. Evans and his friends had been there without enlisting any support that became apparent—Mr. Cuttle secured the unqualified support of at least three newspapers—Calixto Daily Chronicle, El Centro Progress, Bravely Twice-a-Week News—and the favorable attitude and we believe the ultimate strong support of the Imperial Valley Daily Press. He was also given assurances of support by many of the leading Progressive Republicans of the valley.

In San Bernardino county also the writer found that the leading Progressives generally were for Cuttle. Such men as Senator Avey and Dr. Burke of Redlands, I. V. Gilbert and C. S. Merrifield of Colton, Seth Marshall and Mr. Yokum of Highland and many others of that class, whose names we cannot now recall, were prompt and hearty in their assurances of support.

In short everywhere we found, as in this county, that the leaders among those who made the Johnson and Wallace fight are for Cuttle.

On the other hand we find the newspapers in the district which opposed the nomination of Johnson and Wallace now opposing the nomination of Cuttle and in this way at least supporting Evans.

We know of but one newspaper in the district which is supporting Roosevelt and also supporting Evans. Three papers in Orange county and three in Imperial county are supporting Cuttle. The case is submitted on the facts.

CIVIL SERVICE POLITICIANS

This is the trying year to the civil service man. According to law he is not supposed to mingle in politics except at the cost of his job.

It is hard for those directly connected with governmental affairs not to have opinions and to express them occasionally.

It is well for the civil service employees to have ideas; the government needs more men with their eyes open for improvements.

But these men should not have partisan ideas. Their ideas should be no more urgent of expression before an election than after. The civil service employee who becomes enthusiastic for changes only preceding an election is not usually an indispensable part of the governmental machinery.

few years ago. Farmers generally have changed their opinion on the value of technical training in agriculture.

It is natural they should. The trained man is rising as rapidly in agriculture as in any other line of production or in the professions. Farmers who a few years ago scoffed at the idea of "book farmin'" have been shown conclusively that if they had a little more "book learnin'" they would be more successful farmers.

It requires as much training and experience to become a successful farmer as it does to become successful in the majority of professions. Why should not this training be furnished to the young men and women who expect to enter the occupation as well as to those who enter other lines of work?

The age of specialization and scientific development in agriculture has just begun.

EDITORS FOR ROOSEVELT

The California Outlook, in its issue for this week, publishes the results of a poll of the newspapers of California with respect to the preferences of California newspapers as to presidential candidates for the Republican and Democratic parties.

The returns sent in by editors show that Theodore Roosevelt is far and away in the lead, being by long odds the most popular man mentioned in connection with the presidency in either party.

The poll was taken by post cards. Three hundred cards were sent out indiscriminately, to leading daily and weekly papers throughout the state. Editors were asked to indicate their first and second choices for the presidential nomination. The replies numbered 114, showing Roosevelt the undoubted first choice for the Republican nomination. Wilson leads for the Democratic nomination. Roosevelt received as many votes as Taft, La Follette and Wilson combined.

This poll, which is extremely significant, appears tabulated as follows:

	First Choice	Second Choice
Roosevelt	48	4
Taft	28	6
La Follette	6	28
Wilson*	14	6
Clark*	9	7
Bryan	5	1
Cummins	0	4
Folk	0	1
Harmon	0	3
Hearst	0	3
Underwood	0	1
Scattering	0	5
*2 half votes each.		

Riverside Press: Santa Ana is discussing the matter of framing a special city charter and the suggestion meets with quite general favor. The city now is a fifth class municipality and is one of the few larger cities in Southern California that has not adopted a special charter. Redlands is the only other city in the same class that has failed to take this progressive step. San Diego, Riverside, Pasadena, Long Beach, San Bernardino, Santa Barbara, Pomona and Santa Monica have special charters and not one of those cities would go back to the old fifth or sixth class municipality.

Where Taft Will Land

By S. A. Phillips.

W. H. Taft stands convicted of telling a great truth when he said: "that promises concerning the present bad state of affairs had been made repeatedly for the last twenty years and scarcely one of them had been kept." The Chicago College president was also equally truthful when he said, "This is not merely a presidential election but a revolution."

But Roosevelt expressed the sense of both truths when he said "The Republican party has changed; it has left its position which it occupied in the days of Lincoln, and we must return to that place and restore it to its former glory."

We who lived in those days and saw the party's first president can understand and appreciate Roosevelt's remark. The middle and younger generations do not understand it, for they could learn it only by the most careful study and research of political history, which they have neither time nor disposition to do.

So gradual, so silently and yet unceasingly has the liberties and rights of the people been stolen away, that they are not aware of what has been done. The flag which my great-grandfather followed under Washington, and which my grandfather also defended in 1812, and for which my father gave his life in '63, looks different to one now from what it did when I saw it in '65 unfurled from the dome of the Capitol of the expiring Confederacy which had lifted its hand against it. Somehow its stars are not as bright, its stripes not so

brilliant as then. It seems to have a yellow tinge that dims its lustre. Has it been lowered from F to G?

Yes, we must have a restoration. Heaven and most of the people know we need it, and the way to get it is as evident as a pumpphandle. Agitate, discuss, read and think; then let the people speak through the primaries instead of being controlled and herded by politicians and the "interests."

A story was told me by a white man who, with two or three others, were present at a dance down South among the colored folks. They would "hoe it down" until heated up, and at the end of each "set" they would rush to a well about 60 feet distant, situated under a tree, and about 14 feet deep, where they would get a cold drink and then hurry back for the "summer."

Some one of course moved the curb, which was a loose box affair, so that a little more than one-half the well was open. They hid close by and awaited results. It was quite dark, yet the outlines of the well could be seen. Presently a young darkey in his best togs came up at a lively gait and walked right off, kersuge! into about five feet of water. They heard him catch his breath two or three times, ough! ough! Then he roared, "God-A-mighty, who moved dat well!"

Now, Mr. Editor, I believe that if the people are not kept from choosing their candidate for president at the primaries, Mr. W. H. Taft will take just as sudden a drop into a cool place as did that darkey, and like him, he will exclaim "God-A-mighty, who moved dat well!"

CATCHING UP WITH ROOSEVELT

By JUDSON C. WELLIVER in Mnusey's Magazine

JUSTICE FOR GOVERNMENT EMPLOYEES

Closely related to this legislation was the act, drawn in accord with Mr. Roosevelt's recommendations, to grant employees of the United States compensation for injuries sustained in the course of their employment. Prior to its passage an employee of the government had no recovery if injured. The government could not be used like an industrial corporation. There was vigorous objection even to so reasonable a measure. It was voiced by Mr. Bailey, of Texas, thus:

"I never was more certain of anything in my life than I am that this is a bad bill. It is vicious in principle, in that it sends men for the determination of what ought to be a legal right to an officer of the government who need not be, and generally is not, a lawyer."

Of the same class of social legislation for the benefit of workers was the act of 1907 limiting the working hours of railroad employes. In regard to this measure, Mr. Williams, of Mississippi, declared himself "in absolute and hearty accord with the minority members of the committee, who see in the bill nothing but a sham, a delusion, and a pretense." But the legislation passed, and has produced excellent results, bringing justice to men who were grossly and sometimes inhumanly overworked by heartless managements.

During his second administration, Mr. Roosevelt became deeply interested in the Federal regulation of corporations engaged in interstate commerce other than carriers. In a message on January 31, 1908, he declared that "recent court decisions had made it desirable that there should be additional legislation concerning the relations between the great corporations and the public." A bill was introduced (Senate 6440, Sixtieth Congress, Second Session) to supplement the Sherman Anti-Trust Act by providing for the registration and licensing of corporations, requiring the fullest publicity concerning their affairs, forbidding consolidations without approval of the Federal authorities, and giving such authorities the right to withdraw the license of any corporation found to be in restraint of interstate commerce.

An Attempt to Clarify the Law

This measure, in short, proposed to leave the present Anti-Trust Act substantially unchanged, but to add provisions to facilitate its administration and to enable the government to inform itself concerning the business of corporations. Since the Standard Oil and Tobacco decisions, it has been almost universally admitted that such legislation is needed. The demand has gone up from all quarters that the laws shall be made more definite and specific, so that men of affairs may know at the inception of an enterprise whether it is legal or not.

It is difficult to realize that so recently as three years ago such a proposal as this was unanimously rejected by the Senate Committee on the Judiciary, and that the bill which proposed such a supplementing of the Anti-Trust Law was turned down with an elaborate and unfavorable report. Yet such is the fact. The committee reported on January 26, 1909, and its concluding observations, which I will quote, are certainly illuminating today:

"The act (the Sherman Law) as it exists, is clear, comprehensive, certain, and highly remedial. It practically covers the field of Federal jurisdiction, and is in every respect a model law. To destroy or undermine

ST. PATRICK'S DINNER

Dr. and Mrs. Paul Had Charming Dinner for Company of Friends Last Night

Dr. and Mrs. J. E. Paul of Spurgeon street very happily entertained a company of friends last night with a St. Patrick's dinner and social evening. A three course dinner served at seven o'clock was generously decorated with the symbols devoted to St. Patrick. Tiny green flags and candy potatoes were conspicuous in the green and yellow color scheme, the tints of which prevailed through the various dinner courses.

The evening hours following the dinner were spent in social conversation, musical numbers furnished by Miss Hazel Stockslager and readings given by Miss Turner of Tustin.

The guests of Dr. and Mrs. Paul were Mr. and Mrs. E. A. Stockslager, Mrs. Harriet, Miss Hazel Stockslager, Miss Leva Sturtevant, Miss Turner of Tustin, Miss Coffin and Dr. Tyrrell of Orange.

Pictures Postponed

On account of the great demand for the "Power Behind the Throne" the parties having these pictures have held them over longer than their allotted time, causing a disappointment to all concerned. Dr. Roberts will bring these pictures here later.

Tonight and Sunday night there will be six reels of pictures including "The Rose of California," shown at the Temple Theatre.

For Whist Club

Mrs. Hiram Connell was hostess last evening to the Evening Whist Club, entertaining her guests with a dainty six o'clock dinner before the whist games in the evening. St. Patrick decorations were used for the dinner.

Here is the proposition for every boy and girl in Orange county, up to twenty years of age, not studying in the Conservatory, to win a free term of lessons in any department or at least an amount equal to twenty per cent of cost of term to apply on same.

How many words can you make from the letters in the word "Conservatory?"

Can you make thirty? If so, you will be given credit for twenty per cent of the cost of any term you may select in the Conservatory. The value of this prize ranges from \$1.30 to \$8.50.

To the one making the most words we will give a prize of ten dollars in tuition in any department.

Isn't this worth working for?

HOUSEHOLD ECONOMICS

Ladies of Two Sections of This Ebel Department Held Meetings Yesterday

The Third section of the household economics department of the Ebel Society met yesterday afternoon with Mrs. F. L. Andrews at her home on East Fourth street. The hostess was assisted by Mrs. C. C. Collins and Mrs. A. G. Finley, and the subjects under discussion for the afternoon were "Sanitation" and "Paper Bag Cookery." Mrs. Collins and Mrs. Stockslager each had papers on sanitation, and Mrs. Andrews not only discussed the subject of paper bag cookery but gave a demonstration of the latter in some delicious baked apples which had been cooked in a paper bag. The apples were served with sweet whipped cream and nuts. The refreshments also included cake and mints. The mints were of green as an attention to St. Patrick, whose day is so near at hand. Greenery was also used in the decorations united with roses.

There was a goodly attendance and the afternoon passed off pleasantly as well as profitably.

Another economic section, Number One, of the Ebel Society, held an excellent and well attended meeting yesterday afternoon at the home of Mrs. W. M. Smart on North Main street. Ladies on the entertainment committee with Mrs. Smart were Mrs. P. R. Reynolds and Mrs. L. A. Colver.

After an interesting program, the hostesses served delicious refreshments and a social hour was enjoyed.

The practical part of the afternoon was the study of preparing and cooking fish in various ways.

ARM WAS BROKEN AT TUSTIN YESTERDAY

Ernest Hubbard, employed in the Tustin blacksmith shop, received a double fracture of the right forearm yesterday afternoon while at work. He was attempting to shut off a pulley when his sleeve was caught and his arm drawn in and clear around the pulley before the power was shut out. He was able to walk over to Dr. Forline's office, where the fracture was set. Mr. Hubbard sure showed some nerve, for although the fracture must have given him a great deal of pain, not a sound was heard from him all the time it was being set.

FUNERAL WAS HELD THIS AFTERNOON

This afternoon the South Methodist church was crowded with those who attended the funeral of Miss Neena Nuckolls. Not only the attendance but the flowers showed the great esteem and love borne toward the young woman, who died at her home here yesterday morning. The bearers of the casket were L. A. West, W. B. Williams, C. E. Jackson, B. F. Beswick, William Wakeham and Steele Finley. Solos were sung by Mrs. C. M. Knox. Rev. Martin led in prayer, and the address was made by Miss Nuckolls' pastor, Rev. Stem.

CLUB IS FORMED BY FOLLOWERS OF TAFT

(Continued from page one)

down in a way I did not like. He said it had to go, we had to make progress. The result was he got tied up and lost everything in the well. I would put the proper tools down and make progress slowly but right.

"The tariff has builded our great industries. I call to mind the fight for tariff on our citrus fruits. Champ Clark as the leading Democrat on the Ways and Means committee, said he stood for free trade on citrus fruits. Clark is a splendid man. I don't know that he is much of a statesman, but he is very likely to be the Democratic nominee, and it behooves us to watch out."

Chapman said that he never expected to see Roosevelt run. He thought Roosevelt was merely enjoying the "luxury of being talked about."

"In New York, I think he does not stand much of a show," said the speaker. "In California I think he does."

"The Republicans have the hardest fight in years. It behooves us to be loyal."

Fredericks Speaks

District Attorney Fredericks was introduced as the man who prosecuted the McNamara.

In opening, Fredericks said that he thought Chapman would fit the congressional position very well indeed.

He said Taft had an experienced mind. Taft had been made the football of the political contests. President Taft proposed to put the tariff matter on a scientific basis, and has a commission to investigate.

The speaker read the criticism of Roosevelt made by John D. Works, now United States Senator from this state.

"Senator Works knew that Roosevelt was tearing down that barrier that has kept us from going backward," said the speaker. "The Progressives have been shying rocks at the constitution. They say we have outlived it, that it does not fit and we must have government by the people."

If that is so, what is the matter with the Ten Commandments? Some of us may get the idea that Franklin, Jefferson and those forefathers did not know much, but I tell you they could fill the presidency if they were here today.

"The men who grew up the constitution knew what they were doing. They knew that people are swayed by passion and prejudice, and they purposely made it impossible to change the government until people had cooled after passion. That is why we have those three departments, judicial, legislative and executive. Those are the things Roosevelt wants to wipe out. He wants to put himself in their place. I don't want a one-man rule, and I don't care how able, how temperate, how good he is."

Taft believes that the ultimate voice of the people is sane. We are governed, not by people, but by law. There is disaster ahead unless we get back to the old ideas of law, for the law is more substantial than the whims of the people.

"It is to our profit to keep a man in office for two terms. We get the benefit of his experience and his mistakes, and unless a president has made a signal failure he ought to be given two terms. Show me where Taft has failed. He is big, brainy, polished, cultured, a Christian, and he understands the common people."

"What has he done? Roosevelt was president seven years and brought twelve prosecutions under the Sherman anti-trust law. Taft has been president three years and has brought seventy-nine prosecutions. He is doing his work quietly, but he is bringing home the bacon. It is up to us to let the people know how well he has done his work."

REO AUTO AGENCY
NOW IN CHARGE OF
HENRICKSON & BATES

The agency for the Reo automobiles which for the past five years has been in the hands of the late A. B. Henrickson, will in future be in charge of L. P. Henrickson and Geo. L. Bates. The Reo office at 204 North Main street and the Reo Garage at 217 East Fifth street, will be open for business after this date.

The Reo branch salesroom at 208 East Chapman street, Orange, will also be continued as heretofore. The Huntington Beach agency for the Reo will still be in charge of Elliott Bros., and as in the past will be a branch of the Santa Ana agency.

Immediate deliveries can be made of all 1912 Reo models from any of the above places.

Those desiring demonstrations or any information regarding the Reo, are requested to phone to the Santa Ana, or either of the branch offices.

L. P. HENRICKSON.

Speaker Is Coming

Local Socialists have telegrams from San Diego stating that Comrade Morgan will be here to address the meeting at 2:30 o'clock tomorrow afternoon at Brotherhood Hall. The meeting is to voice protest concerning the free-speech fight at San Diego.

Type Is Result of Feeding

Type has been the result of feeding, environment and selection for a definite purpose. By the selection of the best milkers and by proper feeding with suitable surroundings, it has been possible to bring to their present high state of development the different breeds of dairy cattle; and, apparently while they are fixed in type and characteristics, there is nothing stable without the ever-guiding hand of man. The power of avianism, that ever-present tendency to some remote ancestral trait, is liable to crop out at any time; and, if animals are left to themselves retrogression should be fast and furious and the good work of generations of progressive breeders would soon be lost sight of.

SCHOOL FIGHT GETS LIVELY

Angel and Gervais Will Oppose
Spencer and Storm for
Education Board

ANAHEIM, March 16.—Announcement is made that at the coming election on April 5, of the Anaheim Union High School district, two candidates, E. F. Angel and D. Gervais, have been chosen to run for election as trustees in opposition to F. C. Spencer and Mr. Storm, the present trustees. It was reported that these two would not be candidates for re-election, but this report is emphatically denied in a statement in which they say that there has been a great deal of adverse criticism in regard to their work in regard to retaining the present faculty, and that they have run the business in the best manner they thought possible, and do not want to be relieved under fire.

The opposition, however, in putting up Angel and Gervais, believe that the present faculty is all right, and will base their campaign on the retaining of the present faculty for next year.

The election promises to be very interesting and will rival the municipal election, which comes on April 8, for attention.

MEETING IS CALLED TO FORM A CLUB

ANAHEIM, March 16.—The meeting which is called for this evening to organize a Taft Club in this city will meet at 7:30 in the chambers of Justice Howard's office in the Backs block. The call is issued by the local members of the Republican central committee, who are Justice J. S. Howard, Earl Duckworth, F. C. Spencer and Charley Bowlton.

There will be a dance at Delhi Saturday evening, March 16, 1912. Everybody cordially invited to attend.

RECEIVE BIDS ON KRUG SITE

Property Owned by School
District is to be Sold by
School Board

FULLERTON, March 16.—A decree has been received from the superior court declaring the Central site to be the legal site for the Fullerton Union High School. This final decision sets aside the injunction granted some time ago against the trustees erecting the high school on the Krug site. This question was decided recently by a special election in this district.

The bonds had been sold previous to the injunction, and work will be commenced immediately. Notice has been sent to the successful contractors who bid on the buildings, and it is expected they will begin work at once.

Bids are being advertised now for the sale of the Krug site, the location formerly proposed for the high school. It is hoped by the trustees that as high as \$20,000 can be secured for the property, but unless there is some oil speculation considered in the purchase, it is doubtful if that amount will be secured.

Fifteen shares of Anaheim Union water stock is included, which has a value of about \$250 a share.

ROTARY DRILL WILL BE USED

Delaware Company Will be
More Active in Field Than
Ever Before

FULLERTON, March 16.—The latest feature in the oil development of this county is the decision which has just been reached by the directors of the Delaware Union Oil Company to install a rotary drill for use in boring a new well on their lease in Brea Canyon. This decision means that there will be greater activity shown by this company in the future than has been shown in the past, for the use of the rotary in this canyon is something of an experiment as it will be the first one to be installed. As speed seems to be the thing sought it is safe to say that this company is confident of successful returns.

And this gives more foundation to the report that the Esperanza Company of the Rodechids will soon take over the Delaware Union oil lease as it has been understood that it was very much interested. This report is neither absolutely denied nor affirmed at the main office, but is denied by many people of the Delaware Union.

It is feared by many that the formation in Brea Canyon is such that the rotary will be unsuccessful, but as that same opinion was offered when it was put to work in the open country, a trial alone will determine the matter.

The desirability of rigging for the use of both rotary and standard drills has been demonstrated by the Amalgamated and Union Companies on their leases. Striking the hard ground at a depth of about 700 feet they changed from the rotary to the standard and now that they have reached softer ground again, the rotary will be again used for it makes much faster time. These leases are in the valley.

The matter of further expansion of the Orange County oil field has undoubtedly ceased for a time at least, as far as the valley center is concerned, for all of the property in that section has been taken up mostly by the Standard Oil, Amalgamated, Union and Petroleum. This will undoubtedly take a long time to develop. Much property on the south side of the Murphy holdings towards Buena Park, Fullerton and Anaheim is regarded as wildcat, but as this was the same view taken of the valley a year ago, it can safely be assumed that these various companies know what they are doing in securing it.

A contract has just been signed whereby the Amalgamated will furnish the Union Oil Company with natural gas for fuel purposes in their boilers.

F. M. Selby, a geologist of note, as well as president of the Selby Oil and Gas Company of Tulsa, Okla., has been spending a great deal of time during his stay here this winter in looking over the oil fields. He is said to be highly impressed with this field and says that although in California there is more oil produced than consumed, yet the overproduction is diminishing and the situation this year is a great improvement over last year. He says that he believes that in California we have not done much more than prospected in regard to oil territory. He says that the prices of oil have steadily increased not only in this state, but in the East as well.

Last Saturday the Associated at Bakersfield accepted the offer of the Union's of 35 cents a barrel and so has raised the minimum price of crude oil in California to that figure.

PROGRESSING WITH SEWERS

ANAHEIM, March 16.—Rapid progress is being made in the construction of the outfall sewer system and at present there are about thirty-five men engaged in laying the pipe. At present the work is inside the city limits, but it is thought by City Engineer Steward that this will soon be finished.

On the 28th of this month bids will be received for the construction of the line for a distance of 3500 feet immediately outside the city limits. As soon as the bids are received and acted upon, work will be commenced in this section, as the ranchers through whose land the right of way goes are anxious to have the pipe laid so that they will not be interfered with in the planting of their fields.

Engineer Steward said that there is plenty of work ahead, so that there is no chance of the thirty-five men having to lay off until the new bids are received. Chamberlain has the contract for the present section, and Ralph Cogburn of Santa Ana is inspector.

LOS ANGELES PRODUCE MARKET

Tomatoes were weaker, few Mexican offerings selling for more than \$2 a box. The decline was due to the poor quality of the stock in hand. Celery continued to be quoted at \$5.75 per crate for the best. Lettuce was weak, due to liberal receipts and light shipments to northern points.

Rhubarb was quoted as high as \$1.75 per box, with plenty of sound stock to be had at \$1.25. Green peas were a trifle easier, but the best stock was held at 10 cents per pound. Eggplant continued to command top prices, owing to scarcity.

The citrus fruit market was dull and inactive. There was only a moderate local demand for navel oranges and only fancy stock commanded anything like top figures. Lemons were a shade weaker. The top price on especially fancy stock was \$3.50 per box, and handlers moved out their stock slowly at that figure. There was plenty of accumulated inferior stock sold at low figures.

Apples moved out slowly but quoted prices were firmly upheld. Newton pippins were best in call at the outside figure of \$1.75 for the four tier size.

Tropical fruits were firm at former rates with considerable activity shown in Central American pineapples and bananas.

The egg market was steady under the revised quotations of the previous day. There was a good demand for candied stock at the low quoted prices. Receipts were 600 cases. Butter was firm and unchanged.

There was a good demand for creamery extra and ladle stock. The bulk of the sales was not large but in keeping with the arrivals. Receipts were 19,355 pounds.

The potato market was in good shape notwithstanding liberal receipts—6588 sacks. There was a good retail trade in Oregon stock. Shipments were light.

The prevailing quotation of \$3.50 a hundredweight for all varieties of yellow onions was firmly upheld. The demand at that figure was good. Receipts were 119 sacks.

Sweet potatoes were active at former rates. No receipts were reported in.

Bean arrivals were 1164 sacks. The market was firm generally.

CERTIFICATE OF PARTNERSHIP

State of California, County of Orange. We, the undersigned, do hereby certify that we are co-partners transacting and engaged in the business of repairing machinery and automobiles and operating a machine shop and such other work and business as is usually done in connection with a machine shop, under the firm name and style of the Santa Ana Machine and Auto Works, in the City of Santa Ana, in Orange County, California, which said city is the principal place of business of said co-partnership; that the names in full of all the members of said co-partnership, doing business under the firm name and style as aforesaid, together with the place of residence of each are as follows: William Surlinton Park, who resides in the said City of Santa Ana, Orange County, California; and Humbert Henry Gilman, who resides in the said City of Santa Ana, Orange County, California; and none others. And we do further certify that said partnership was formed and entered into and the business thereof commenced on the 8th day of March, 1912.

Dated this 8th day of March, 1912.

H. H. GILMAN, W. S. PARK.

EVERGREEN

SPOT is the meaning of the name YUCAIPA. In the "Days of the Dons" they knew how to pick out the best places. Here in this valley they always found feed. Be as wise. With an average rainfall of 25 inches and the finest kind of an irrigating system, in steel mains to every 5 or 10 acre piece, the Yucalpa valley is an ideal place for all kinds of crops. While it is especially valuable for the Big Red Apples, it is equally good for all fruits and vegetables. The soil, the water, the climate and all the other factors that make people want to live in Yucalpa valley. But to get such a piece of soil under irrigation in the suburbs of the finest city in Southern California, and buy it on easy yearly installments, is an opportunity you cannot afford to pass by. You ought to see the activity in the valley. Setting out a thousand acres of apple trees, building homes in the new town and on the fruit ranches, putting in crops, building churches, schools, and stores. We are now selling the fourth subdivision and you need to hurry up if you want in on the first prices. A fine lot of fruit growers are buying up every acre under irrigation. The Yucalpa valley is only 60 miles from Santa Ana and we will take you up and show you the valley in one day. Come and see us and learn many details we cannot explain in this space. Go along with us next Wednesday or Thursday.

U. S. MAY YET DREDGE
SAN PEDRO HARBOR

House Committee Will Reconsider Adverse Report on the Proposition

LOS ANGELES, March 16.—Los Angeles is rejoicing over the news received here that the House Committee on Rivers and Harbors at Washington yesterday unanimously agreed to request of the Board of Engineers of its former adverse report on the dredging of San Pedro harbor.

Major Charles H. McKinstry, who is in charge of the governmental work at the harbor and who recently returned from a trip to Washington and Panama, was largely instrumental in bringing about the preliminary victory for Los Angeles. He will make an examination and survey of the harbor as soon as he receives instructions from Washington. It is understood that he is favorable to the dredging program advocated by the city.

FREE SUGAR
BILL PASSED

Measure Carried by Vote of 198 to 103—Exciting Debate Marked Passage

Insurgent Republicans With Democrats—Colorado and Louisiana Against

WASHINGTON, March 16.—The House today considered the excise tax law proposed by the Democrats as a means of supplying the \$31,000,000 lost through the passage of the free sugar bill. Underwood will demand a vote on Monday.

FREE SUGAR BILL PASSED

BY VOTE OF 198 TO 103

WASHINGTON, March 16.—After a day of exciting debate, during which Representative Ollie James and other Democrats quoted such Republican tariff authorities as Soren Payne and the late President McKinley to prove the justice of their cause, the House last night passed the free sugar bill by a vote of 198 to 103, nearly two to one. It is pointed out as a matter of great significance that no fewer than twenty-four progressive Republicans joined the Democrats in voting for this measure. Only seven Democrats, five from Louisiana and two from Colorado, both sugar-producing states, voted against it.

If passed by the Republican Senate and signed by President Taft the free sugar bill will lift an annual burden of \$117,000,000 from the shoulders of the consuming public.

It will put an end to an annual tribute of \$60,000,000 to the sugar trust.

Loss in revenue to the government will be amply reimbursed by an income tax of one per cent on all incomes over \$5000 per year, thus taking the burden from persons of limited means and placing it upon the well-to-do.

WANT ANOTHER
MAN ON BEAT

Petition to be Presented to the Trustees Asking for One New Policeman

A petition signed by many property owners will be presented to the City Trustees Monday night asking for the appointment of an additional policeman for the East Side. At present Policeman S. P. Hamilton patrols the warehouses, lumber yards, packing houses and railroad reservations. Hamilton was not asked for help, but many of the property owners in that section say that they believe that a policeman traveling alone on that beat takes his life in his hands as it is along the railroads that the hoboes and criminals are escaping from other places are to be found.

With the expectation that the City Trustees would grant the petition, J. H. Isenberg has started a petition asking that he be appointed to the place. Isenberg was an efficient officer under the last administration.

Method in Madness
Pat Sullivan was a soldier and a good fellow; but in the opinion of officers and men alike he was certainly suffering from some brain affliction, and when on duty or at drill he would suddenly break from the ranks and run after an imaginary bit of paper, visible to no one but himself, shouting as he did so:

"There it goes! There's the paper!"

This at length became so frequent an occurrence that, on the matter being brought before the medical authorities, he was declared to be suffering from a slight attack of insanity, and in consequence he was given his discharge. When leaving, however, he gave evident proof that there was some method in his madness, for as he quitted the service for ever he cried, flourishing his discharge paper:

"Faith, boys, sure I've got the piece of paper I've been running after this long time!"

MASSACRE IS
THREATENED

All Americans Warned to Leave Tampico Under Threat of Early Death

Massacre for All Who Remain Set for 4 Today—U. S. Consul Wires State Dept.

TAMPICO, Mex., March 16.—Official warning has been issued to all Americans to leave Tampico. The American colony has been aroused by placards placed throughout the city declaring that every American remaining in Tampico after four o'clock this afternoon will be killed.

The Federal authorities have proposed protection, but have little strength, the rebels greatly outnumbering them.

STATE DEPARTMENT HEARS

OF DANGER TO AMERICANS

WASHINGTON, March 16.—American Consul Muller at Tampico, Mexico, has wired the State Department that the foreign residents are in panic stricken. Anonymous letters have been received that predict the massacre of every American on the West coast. The Maderista authorities have established an armed guard about the American quarter.

U. S. RANCHMEN TELEGRAPH

FOR PROTECTION FROM RABDERS

EAGLE PASS, Tex., March 16.—Ranchmen have telegraphed Governor Colquitt asking protection from Mexican raiders.

Two hundred Chinese refugees who escaped from Torreón have arrived at Piedras Negras, opposite Eagle Pass, and have asked permission to enter America under bond, fearing violence on the Mexican side. The request has been transferred to Washington.

Six thousand Federal troops and five thousand rebels are near Laguna, and a battle is expected soon.

COUNTY BEES
IN FINE TRIM

Outsiders Come to This County to Get Stands Free From Disease

That Orange county bees are clean bees is demonstrated by the fact that frequent visits are made here by outsiders seeking the purchase of bees to be taken elsewhere. Buyers of bees want stands that are free from foul brood, and Orange county apiarists have the reputation of being of that kind.

Yesterday and today County Bee Inspector Pleasant has been busy inspecting 350 stands bought by Roy Bateman for shipment to Brawley. Part of these were bought from J. E. Snow and part from Brown of Tustin. Out of 300 stands examined, not a defective brood was found.

MORNING SERMON:

"The Child in the Midst."

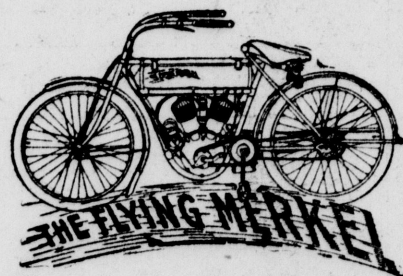

Jesus' discovery of childhood is one of the striking features of His life. His words: "Of Such is the Kingdom of Heaven," were almost revolutionary.

EVENING LECTURE-SERMON:

"Make Your Life Count."

Lifting on something that lifts you. An address on "Doing Things Worth Doing," with illustrations from real life.
